SUMMARY

Software Engineer Intern dedicated to improving skills through hands-on learning and development work. Proficient in web development environments. Adept at using HTML5, JavaScript, CSS, React.Js and, other programming languages to produce clean code. Well-organized and collaborative team player with solid communication and analytical abilities.

SKILL

Frontend
Development

React.js | JavaScript | HTML5 | CSS | Responsive Web Design | Node.js | Bootstrap | Front End Web Development | redux | webpack | Coding | SEO | GitHub | SaaS | Digital Marketing | Figma | Canva | Data Structures And Algorithms

PROJECTS

Portfolio

I've crafted a comprehensive portfolio using **React.js, HTML, CSS, and JavaScript**. Leveraging **Framer Motion** for sleek animations, I've designed it with precision using **Figma**. My project is open-source on **GitHub**, and I've hosted it seamlessly on **Netlify**, showcasing my skills, projects, and creativity to the world. (<https://vijay23.netlify.app/>)

To-do list

I recently completed a **To-do list application** using **HTML, CSS, and JavaScript**. Leveraging **Event listeners**, I ensured seamless user interactions. **Local storage** was implemented for data persistence, enabling users to access their **tasks even after closing the browser**. The application's UI and layout were meticulously designed using **Figma**, resulting in an intuitive and visually appealing interface. To showcase my work, I hosted the project on **GitHub**, allowing for easy access and collaboration. This project not only honed my coding skills but also showcased my proficiency in design and collaboration. (<https://vijayk23.github.io/Todolist/>)

Calculator

Using **HTML, CSS, and JavaScript** with **DOM manipulation**, I have created a calculator that utilizes **'try-catch' error handling** to ensure a seamless user experience. The project is hosted on **GitHub**, and I added functionality to the buttons using **HTML 'onClick'**. Not only has this project allowed me to improve my web development skills, but it also serves as a platform for me to showcase my work and share it with others. (<https://vijayk23.github.io/Calculator/>)

Stopwatch

I've created a **Stopwatch** application using HTML, CSS, and JavaScript, enhancing it with **React.js** for a dynamic user experience. Leveraging React features like **useEffect** and **useState**, I've ensured smooth functionality. In terms of design, **CSS Flex** was employed to create an aesthetically pleasing layout. You can check out the code on my **GitHub repository**, and I've also hosted the Stopwatch on Netlify for easy access and testing. (<https://vijaykstopwatch.netlify.app/>)

WORK EXPERIENCE

JAN 2020 - JUL 2021

Digital Marketing Executive

Ovantica, Chennai

- Directed traffic growth strategies, including SEO, affiliate linking campaigns, content distribution, email marketing and trackbacks.
- Created solution-based execution plans to achieve business goals based on Google Analytics and internal reporting data.

SEP 2021 - SEP 2023

Executive RCM Cycle

Corrohealthcare, Chennai

- I managed eligibility, authorized appointments, and updated patient demographics, and insurance details. I safeguarded confidential documents while ensuring organizational maintenance.

EDUCATION

JUL 2015 - APR 2019

Bachelor of Engineering : Mechanical Engineering

SKP Engineering College

CGPA: 5.4

MAY 2014 - MAY 2015

12th Grade

DR. V Genguswamy Naidu Matric Hr Sec School

PERCENTAGE : 65

MAY 2012 - MAY 2013

10th Grade

DR. V Genguswamy Naidu Matric Hr Sec School

PERCENTAGE : 85

LANGUAGES

TAMIL | ENGLISH

HOBBIES AND INTERESTS

I enjoy coding, which allows me to create digital solutions and explore problem-solving. Gaming is another passion of mine, offering both entertainment and a sense of competition.
